MC pg 52 Test 95

Wed May 6th

Parallel lines are straight lines that run the same direction but never meet e.g. train tracks. These lines are always the same distance apart.

1.

2.

3.

Above are 3 pairs of parallel lines.

Task 1: BAM pg 129 Q1-3 + Puzzle

Task 2: Look around.

What type of lines do you see in the environment? E.g.

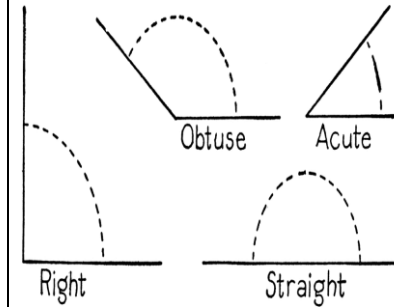

Telephone pole = vertical line.

Fence? Clothes line?
